THE RESULT OF THE AUTOPSY ATTENDING THE sudden demise of Police Commissioner and that sudden demise of Police Commissioner and that demonstrated he fact that, while apparently in the best of health, organic diseases of the blood and kidneys may be prematurely hastening the patient to an unitimely grave, unbeknown even to the hedical attendant. Yet almost every chronic disease will develop itself through the circulatory system, and once authentically informed of his condition, the treatment is, perhaps, the simplest in the practice of medicine. A careful analysis of the urine will always demonstrate such condition, but it should be entrusted to none but the most competent hands. Dr. Mars Ton, of No. 23 East Sixteenth street, hetween Union square and Pith avenue, has made this specialty the practice of a like time, and all who fancy themselves aff cted with any chronic form of disease or deblity would do well to conter with him. Consultational personality or by letter, from 10 to 2 and 5 to 8 daily.
